1983 Annual Index

Power Engineering

TECHNICAL PUBLISHING
1301 South Grove Avenue, Barrington, Illinois 60010

a company of
The Dun & Bradstreet Corporation

TITLES

COOLING TOWERS

Computer program pairs old blades on new hubs for cooling tower fans ..... Aug 56

ELECTRICAL MOTORS AND SYSTEMS

Eleven checkpoints for effective power plant start-up ..... Nov 52

ENVIRONMENTAL CONTROL AND MONITORING

Quick response controls PCB spill at TVA plant (Field Notes) ..... Apr 94
Changing clean air regulations for power plants ..... Aug 34
Corrosion of baghouse doors ended by installing new seals (Field Notes) ..... Sep 24
Changing regulations are key factors in power plant siting and design ..... Oct 59
Largest scrubber retrofit nearing completion (Field Notes) ..... Dec 24

EXOTIC POWER

Developments in energy storage technology ..... Jul 46
New developments in lead acid batteries (Field Notes) ..... Oct 24
Fiberglass pipe liner provides full power for CAES system (Field Notes) ..... Nov 32
Geothermal hot water power project gets underway (Field Notes) ..... Dec 20
Wind energy center encourages turbine development (Field Notes) ..... Dec 22

FUELS, STORAGE AND ASH HANDLING

Fire protection for coal handling systems ..... Feb 60
Upgrading and maintaining coal handling equipment ..... Mar 42
New coal sampling method provides multi-million dollar savings (Field Notes) ..... Apr 98
Systems approach to dust emission control at coal piles ..... Jun 57
Coal breaker solves problem of handling frozen and sticky coal (Field Notes) ..... Sep 24
Coal yard foundation stabilized with cement-treated crushed stone ..... Sep 56
Handling and firing nonconventional fuels ..... Dec 34

HYDROELECTRIC POWER

Vintage Kaplan runner converted to fixed pitch gets new lease on life (Field Notes) ..... Sep 22

INSTRUMENTS, COMPUTERS, AND CONTROLS

Applying human engineering processes to control room design ..... Jan 38
Lignite unit controls tuned for fast, stable response ..... Feb 56
Computerized plant performance monitoring ..... Feb 63
Computer program pairs old blades on new hubs for cooling tower fans ..... Aug 56

Temperature and heat loss calculation with a hand-held computer ..... Dec 50
Improving the accuracy of air preheater measurements ..... Dec 54

MAINTENANCE AND CONSTRUCTION

Mechanical casing repairs extend life of old T-Gs ..... Mar 55
Four phase chemical cleaning program developed for nuclear steam generators ..... Apr 68
Use of models at CRBRP advances the state of the art ..... Apr 72
Evolution of a steam blowing procedure ..... May 46
CPM for construction scheduling—still the best tool when used properly ..... May 54
CRBRP mockups identify design problems and facilitate construction ..... Jun 64
Corrosion of baghouse doors ended by installing new seals (Field Notes) ..... Sep 24
Coal yard foundation stabilized with cement-treated crushed stone ..... Sep 56
Effective flushing of T-G lube oil system ..... Sep 58
Deficiency tagging ensures timely maintenance, cuts costs ..... Oct 58
Shot peening extends equipment life ..... Nov 58
Avoid the self-degenerating cycle in tubular air heaters: plugging, corrosion, erosion ..... Dec 48

MANAGEMENT

Applying human engineering processes to control room design ..... Jan 38
Measuring the cost effectiveness of training ..... Jan 50
Computerized plant performance monitoring ..... Feb 63
New generating capacity: when, where and by whom ..... Apr 50
Roundtable: utility industry status and outlook as viewed by utility executives ..... May 34
Uprating and improving generating plants ..... May 50
Regulations—why and how ..... Jul 18
Where the electric utility industry is going ..... Jul 20
Services to operating power plants ..... Jul 23
Gaining public understanding of U.S. electrification needs ..... Jul 25
Planning for nuclear power plant decommissioning ..... Jul 56
Growth of electric power in Japan ..... Aug 43
Prompt notification of 100% of people in EPZ ..... Sep
Changing regulations are key factors in power plant siting and design ..... Oct 59

NOMOGRAMS

Nomogram helps maintain desired level of biocide in cooling water ..... Jan 53
Nomogram estimates outlet temperature from multistage compressor ..... Feb 64
Nomogram provides quick estimate of pressure vessel thickness ..... Mar 61
Nomogram provides quick check of oil cooler performance ..... Apr 63
Nomogram calculates resistance of thermocouple wire ..... Jul 60
Nomogram speeds combustion calculations ..... Oct 64
Nomogram calculates retubing criterion for surface condensers ..... Dec 47

NUCLEAR POWER

Planning and implementing nuclear emergency response facilities ..... Jan 54
Prompt siren notification system design ..... Mar 66
Four phase chemical cleaning program developed for nuclear steam generators ..... Apr 68
Use of models at CRBRP advances the state of the art ..... Apr 72
CRBRP mockups identify design problems and facilitate construction ..... Jun 64
Determine optimum nuclear fuel burnup ..... Jun 68
Planning for nuclear power plant decommissioning ..... Jul 56
Pre-startup chemical cleaning of nuclear plant piping ..... Aug 51
Prompt notification of 100% of people in EPZ ..... Sep 47
Visual examination for nuclear inservice inspection ..... Sep 50
Nuclear fuel cycles ..... Oct 42

POWER ENGINEERING PROFILES

A POWER ENGINEERING profile: Don Lyons of Combustion Engineering ..... Mar 62

PRIME MOVERS AND GENERATION

Defining and applying power plant efficiencies ..... Jan 47
Major rotating equipment design developments ..... Feb 42
Mechanical casing repairs extend life of old T-Gs ..... Mar 55
New generating capacity: when, where and by whom ..... Apr 50
AFBAH—a coal combustor for G-T cogeneration systems ..... Apr 64
Slow-speed diesel cogeneration facility is nation's first (Field Notes) ..... Apr 96
Uprating and improving generating plants ..... May 50
Cost/benefit analysis of piping materials used in IGCC power plants ..... Jun 60
Growth of electric power in Japan ..... Aug 43
Effective flushing of T-G lube oil systems ..... Sep 58
Cogeneration, combined cycles, and synthetic fuels ..... Nov 42
Eleven checkpoints for effective power plant start-up ..... Nov 52

PUMPS, PIPING AND VALVES

Cost/benefit analysis of piping materials used in IGCC power plants ..... Jun 60
Pre-startup chemical cleaning of nuclear plant piping ..... Aug 51
Fiberglass pipe liner provides full power for CAES system (Field Notes) ..... Nov 32
Water supply system design involves many technologies ..... Dec 44
Controlling steam pressure and temperature ..... Dec 51

SAFETY AND FIRE PROTECTION

Fire protection for coal handling systems ..... Feb 60
Prompt siren notification system design ..... Mar 66
Power plant safety: procedures, systems and equipment ..... Sep 38

STEAM GENERATORS AND AUXILIARIES

Defining and applying power plant efficiencies ..... Jan 47
Lignite unit controls tuned for fast, stable response ..... Feb 56
AFBC design and operation systems to be evaluated in pilot plant ..... Mar 58
$139-million project restores 105 MW of capacity (Field Notes) ..... Apr 98
Evolution of a steam blowing procedure ..... May 46
Industrial power boilers get design flexibility in modular units ..... May 58
New flame safeguard plus new burners equals low excess air plus high efficiency (Field Notes) ..... Nov 30
Closed feedwater heaters: new emphasis on efficiency, reliability and maintainability ..... Nov 62
Avoid the self-degenerating cycle in tubular air heaters: plugging, corrosion, erosion ..... Dec 48
Temperature and heat loss calculation with a hand-held computer ..... Dec 50
Improving the accuracy of air preheater measurements ..... Dec 54

WASTE DISPOSAL

Four phase chemical cleaning program developed for nuclear steam generators ..... Apr 68
Quick response controls PCB spill at TVA plant (Field Notes) ..... Apr 94

WATER TREATMENT AND MANAGEMENT

Nomogram helps maintain desired level of biocide in cooling water ..... Jan 53
Anticipate future requirements for wastewater handling systems ..... Feb 52
Heat rejection systems: meeting costs, demands and regulatory requirements ..... Jun 46
Requirements for wastewater handling: second-round update ..... Aug 54
Use of pilot plant to improve water treating conditions ..... Sep 54
Use and cost of chlorination systems ..... Oct 54
All-polymer feedwater treatment improves boiler reliability ..... Nov 55
Water supply system design involves many technologies ..... Dec 44

DEPARTMENTS

ENVIRONMENTALLY SPEAKING

Radon: cause and effect ..... Jan 24
Coal—an endangered species? ..... Feb 24
NFPA standards for fossil plants? ..... Mar 28
Happy hunting grounds/PCBs/EPA ..... Apr 32
Scientists speak on acid rain ..... May 24
Modeling, EPRI and pride ..... Jun 30
Identifying the good guys ..... Jul 42
Fish entrainment here and there ..... Aug 24
Eyes/fear/responsibility ..... Sep 20
Environmental audits/mediation ..... Oct 22
Whither the hose mask ..... Nov 26
"Fire on the mountain!" or one man's trash ..... Dec 16

GENERATION IN FOCUS

Mixed reviews for energy and the economy—confusion persists ..... Jan 10
Meeting the load ..... Feb 12
Emphasis on alternative energy and conservation ..... Mar 14
Cogeneration at a crossroads ..... Apr 14
Oil tax pushed by Nobel Laureate—Kondratieff backed by IIASA ..... May 10
Energy risk assessment and the intricacies of cost-benefit analysis ..... Jul 14
Growth projections—U.S. must lead the way ..... Aug 8
Time becomes limited and precious ..... Sep 8
Structural changes in economy exaggerated—growth needed to maintain industrial advances ..... Oct 12
Resources for electric power generation ..... Nov 14
Sustaining economic growth ..... Dec 10

NUCLEAR POWER ENGINEERING

Technological trailblazer ..... Jan 18
Raising the public's fright level ..... Feb 18
Reasons for rising nuclear costs ..... Mar 18
Strategy and tactics ..... Apr 20
Dawning recognition of reality ..... May 14
The emergency preparedness mess ..... Jun 14
Progress on the source term ..... Jul 32
Backfitting and regulatory impact costs ..... Aug 12
Safe shipment of spent fuel—two studies and a hearing ..... Sep 12
Missing: stronger U.S. influence on the fuel cycle ..... Oct 16
Nuclear electricity's share grows ..... Nov 20
USCEA's revealing surveys ..... Dec 14

OPINION

Back to basics ..... Jan 37
Utilities face planning crisis ..... Feb 41
The thrill is gone—will the dream follow? ..... Mar 41
Short-term advantage and long-term chaos: can NEPP-IV make a difference ..... Apr 49
Hydropower takes second place—provides respite for some regions ..... May 33
More forecasts and more confusion ..... Jun 45
Too many ifs, and *deja vu* ..... Jul 45
At the leading edge of technology ..... Aug 33
Reindustrialization—regrouping, revamping, resurging ..... Sep 37
Nuclear power—safe, dependable, economical ..... Oct 41
Gas vs electricity ..... Nov 41
"A society with vision" ..... Dec 33

WASHINGTON ENERGY REPORT

Looking ahead ..... Jan 20
Year's end: still much to be done ..... Feb 20
New congress—same old problems? ..... Mar 24
Utility futures are looking up—maybe ..... Apr 26
Natural gas deregulation—this year? ..... May 20
Coal slurry pipelines ..... Jun 24
Little energy problems ..... Jul 36
Acid rain: a new deluge of problems ..... Aug 18
Taxes and natural gas ..... Sep 16
The regulatory climate: not much improvement ..... Oct 20
Acid rain: still a problem ..... Nov 22

AUTHORS

A—B

Adams, Lewis—Texas Utilities Generating Company ..... Feb 56
Andreone, Carl F.—Stone & Webster Engineering Corp. ..... Nov 62
Bassiouni, M. Reada—Acoustic Technology, Inc. ..... Mar 66, Sep 47
Beers, Stanley C. Jr.—Arkansas Power & Light ..... Jun 68
Berman, Ira M.—Senior Editor, POWER ENGINEERING ..... Apr 50, Jul 46, Nov 42
Berman, Paul—Westinghouse Electric Corp. ..... Apr 64
Blevins, Craig—Texas Utilities Generating Company ..... Feb 56
Bonds, James L.—Arkansas Power & Light ..... Sep 56
Booth, C. Randy—Louisiana Power & Light ..... Aug 51
Brewster, John—Stone & Webster Engineering Corp. ..... Apr 72
Brubaker, James E.—Westinghouse Electric Corp. ..... Jun 64

C—E

Castillo, Fernando—Riley Stoker Corporation ..... May 58
Cavanaugh, J.R.—Westinghouse Electric Corp. ..... Jun 64
Chow, Winston—Electric Power Research Institute ..... Oct 54
Daly, James J.—Metal Improvement Co., Inc. ..... Nov 58
DeCoursey, Dennis—Burns and Roe, Inc. ..... Apr 72
Doss, Danny E.—Arkansas Power & Light ..... Feb 63
Elder, R.T.—Arkansas Power & Light ..... Oct 58
Evans, Robert C.—Arkansas Power & Light ..... Jan 50

F—G

Ference, Edward N.—Westinghouse Electric Corp. ..... Jun 64
Finger, Harold B.—U.S. Committee for Energy Awareness ..... Jul 25
Fowler, Carl—Arkansas Power & Light ..... May 46, Sep 58
Gallino, David A.—Gilbert/Commonwealth ..... Sep 50
Ganapathy, V.—Struthers Thermo-Flood ..... Mar 61, Dec 50
Gese, R. A.—Commonwealth Edison Company ..... Feb 60
Gorrell, Ron—Babcock & Wilcox ..... Apr 64
Graham, John—Lockheed Ocean Systems ..... Oct 54
Gutierrez, C.E.—Halliburton Industrial Services ..... Aug 51

H—K

Herlacher, Tom—Arkansas Power & Light ..... Aug 56
Hight, Victor H.—Gilbert/Commonwealth ..... Sep 50
Hill, John L.—Black & Veatch, Engineers-Architects ..... May 50
Hill, Walter—Project Management Corp. ..... Jun 64
Huebner, Roger E.—Gilbert/Commonwealth ..... Jul 56
Jackson, John K.—Nalco Chemical Co. ..... Nov 55
Kasper, Joel R.—Stone & Webster Engineering Corp. ..... Oct 54
Kearney, John J.—Edison Electric Institute ..... Jul 18
Koch, Douglas A.—Gilbert/Commonwealth ..... Jul 56
Kovar, Edward O.—Burns and Roe, Inc. ..... Apr 72
Kurmarao, P.S.V—Bharat Heavy Electricals Ltd. ..... Apr 63

L—M

Lang, Fred D.—Exergetic Systems, Inc. ..... Jan 47
Langford, David J.—Burns and McDonnell Engineering Co. ..... Dec 45
Lawson, Bob—Arkansas Power & Light Co. ..... Apr 68
Mahr, Daniel—ORBA Corp. and ORTRAN ..... Jun 57
Mason, Derek—Bechtel Power Corp. ..... May 54
Maxwell, Barry—Westinghouse Electric Corp. ..... Apr 64
McAlister, James—Arkansas Power & Light ..... Jul 60, Oct 58, Dec 47
McCubbins, K.C.—Consultant ..... Aug 51
Meko, A.C.—Sargent & Lundy Engineers ..... Oct 59
Modrak, Thomas M.—Babcock & Wilcox ..... Mar 58
Moore, C.A.—Consultant ..... Aug 51
Morris, Douglas I.—Black & Veatch, Engineers-Architects ..... May 50
Mussalli, Yusuf G.—Stone & Webster Engineering Corp. ..... Oct 54

N—R

Neill, George V. Jr.—Black & Veatch, Engineers-Architects ..... May 50
Neuschwander, K.M.—Deseret Generation and Transmission Cooperative ..... Dec 45
Olds, F.C.—Executive Editor, POWER ENGINEERING ..... Feb 42, Mar 62, May 34 Aug 34, Oct 42
Owsenek, Leonard W.—Proto-Power Corp. ..... Dec 48
Papamarcos, John—Editor, POWER ENGINEERING ..... Mar 55, Aug 43
Pine, Steven M.—Honeywell, Inc. ..... Jan 38
Quick, Stanley L.—Westinghouse Electric Corp. ..... Jul 20
Richardson, Duncan—Ultrasystems ..... Nov 52
Rittenhouse, R.C.—Senior Editor, POWER ENGINEERING ..... Mar 42, Jun 46 Sep 38, Dec 34
Rose, David M.—Stone & Webster Engineering Corp. ..... Nov 62
Rosenberg, R.A.—Stone & Webster Engineering Corp. ..... Jun 60

S—T

Schulz, Kenneth A.—Honeywell, Inc. ..... Jan 38
Sinha, P.K.—Bechtel Associates Professional Corp. ..... Feb 52, Aug 54
Sisson, William ..... Oct 64
Smith, J. William—Babcock & Wilcox ..... Mar 58
Sugumele, Dennis J.—Rochester Gas and Electric Corp. ..... Mar 66
Thaler, J.P.—Bechtel Associates Professional Corp. ..... Feb 52, Aug 54
Thomas, William B.—Consultant ..... Sep 54
Trentholm, S.R.—Sargent & Lundy Engineers ..... Oct 59

U—Z

Utracki, Christopher—Babcock & Wilcox Canada ..... Dec 54
Van Blarcom, Peter P.—Yarway Corp. ..... Dec 51
Vering, Ronald D.—Burns and McDonnell Engineering Co. ..... Dec 45
Vivenzo, T.A.—Stone & Webster Engineering Corp. ..... Jun 60
White, James N.—Stone & Webster Engineering Corp. ..... Jul 23
Williams, Daniel H.—Arkansas Power & Light Co. ..... Jan 54
Worthington, R.L.—United States Steel Corp. ..... Nov 55
Zabolotny, E.R.—Stone & Webster Engineering Corp. ..... Jun 60
Zanker, Adam—Consultant ..... Jan 53, Feb 64
